

I am very disturbed by Sinclair's plan to air an explicitly partisan movie -- Stolen Honor -- just prior to an important election, or any time, in fact, without providing an alternative point of view. We are losing our position as the world's foremost democracy by the way we appear to have lost respect for media independence, local control, and balance. Will we follow Russia where the airwaves are used by those in power to advance their agenda or will we continue to lead by meticulously guarding our free press? The air waves belong to us, the people. If Sinclair is allowed to present this movie on its local stations without acknowledging it as a work of Republican anti-Kerry propaganda it contradicts the essence of what we stand for. Please guard our democracy and forbid this blatant partisan abuse by a corporation which is supposed to serve all of the people.
